13. COUNCILLORS FORUM

Councillor Pomeroy began the forum by reiterating his concerns about the impacts of Muskrat Falls on our community. He said we haven't seen anything from this project and when the jobs are all gone it will be even worse. Councillor Pomeroy said Muskrat Falls is a

first for our country and he is happy for those that are working but when it is all said and done we will be left to pay for the damage. Councillor Pomeroy said he finds it disturbing to see people being put behind bars because they are standing up for what they believe in. He said there is a very strong police presence here now because of the transportation of transformers from Cartwright to Muskrat Falls and when Council met with the RCMP they were told the intention was not to be intimidating or overwhelming. He said he feels the RCMP need to put their sights on crime in this community instead. Councilor Pomeroy said Cartwright is getting something from this project but he is not sure what. He said he ran into Minister Coady in the airport in St. John's and expressed these same concerns and she is interested in meeting with Council. Councillor Pomeroy said it feels like they are beating a dead horse but they will keep at it.

Councillor Bowers agreed with Councillor Pomeroy's comments. Councillor Bowers said there is a need for a better relationship with Nalcor/Hydro and some policies in place. Councillor Bowers said there is no doubt there are people in favour of the project but there are also people who would like to see it abolished. He said in the end it will produce clean energy but we have to look at our own resources as well as the impacts on social conditions. Councillor Bowers said the new Council will have to continue to work on this but he would like the safety aspect completed before this Council is gone.

Youth Councillor Avery Brown addressed the continuing mental health concerns and said while Muskrat Falls may have amplified it, it was always there. Councillor Brown advised that this is her last meeting as she will be attending University in the fall. She said she has learned a lot over the last year and this opportunity has provided her with a great experience. She thanked Council for providing an opportunity for youth to have a voice.

Councillor Compton Hobbs offered congratulations to Avery and wished her all the best in her future endeavors. Councillor Compton Hobbs agreed with previous comments about Muskrat Falls and added that Council had a meeting with Jim Keating back in May but has not had any communication from him since. Councillor Compton Hobbs said there are talks of hydro rate increases and said we need to do something now. She referred to the $250K capacity agreement and said that Cartwright has secured a long term deal. Councillor Compton Hobbs said with there is talk that Gull Island is going ahead but Council has not been included in any discussion. Councillor Compton Hobbs said planning for the Kinsmen Park Festival is coming along and she is looking forward to it. Councillor Compton Hobbs encouraged everyone to come out to the Mental Health and Addictions Public Forum tonight at 7:00 PM.

Deputy Mayor Hamel-Pardy respectfully refrained from Councilors' forum.

Mayor Snook acknowledged the athletes who participated in the Indigenous Games and congratulated them on their success. He said the CSR department will be acknowledging them once everyone has returned. Mayor Snook said he received a call from a resident of Mud Lake thanking the Town for the donation made to their relief fund last month. He said it is still a difficult situation for some there and suggested Council continue to reach out and help where needed. Mayor Snook agreed that there are mixed views about the Muskrat Falls project. He acknowledged Nunatukavut president, Todd Russell's statement about the elders being incarcerated. He said the LLP have had a lot of impact on the project and many agree with them and they should be treated with respect. Mayor Snook said he hopes there is a resolution soon and Council will continue to work towards a good relationship with Nalcor. Mayor Snook thanked the gallery for taking the time on this fine evening to come out to this meeting.

There being no further business, a Motion to adjourn the meeting was made by Councillor Compton Hobbs. Meeting adjourned at 6:30 PM.
